Score Special 2 Ways

All 5 Drop Targets down or ball crossing left bottom rollover when Special light is lit by skill scores Special. Lights lit, after second (conservative adjustment) or first (liberal adjustment) total down of Drop Targets, remain lit until ball enters outhole, permitting each ball to score Special again and again.

Exciting Drop Targets

Popular drop targets build scores fast and are key to Specials and Extra Balls.

New Scattered Flippers

Standard twin flippers at bottom of panel, plus extra flipper in lower left playfield and extra flipper half way up right side of panel give player maximum skill control.

MAXIMUM OVERALL DIMENSIONS
Height, 69½ in. (176.53 centimeters)
Length, 54 in. (137.16 centimeters)
Width, 30 in. (76.2 centimeters)
WEIGHT (NOT PACKED FOR SHIPMENT)
300 lbs. (135.9 kilograms)

Outhole Bonus

Bonus advanced by ball contact with variety of advance-bonus skill objectives, collected when ball enters outhole, often boosting a poor score to respectable status.

Double Bonus

Bonus is doubled if collected when Double Bonus is lit. Double Bonus lights when A, B light in center of panel by ball crossing top left and right rollovers, with A (left) and B (right) arrows lit.

Popular Extra Balls

Ball crossing inner bottom right rollover with Extra Ball lit delivers Extra Ball to ball-shooter. Light lit after first total down of all 5 Drop Targets.

New Play-More Gate

Play-More Gate prevents ball from diving into outhole, after crossing outer bottom right rollover, channels ball to flippers, opened by ball crossing top center rollover when lit.
